Acupuncture and the Nervous System 331
Acupuncture at Hoku point effect on VFR 123
Acupuncture for gonarthrotic pain
  efficiency of therapy 326
  treatment course 326
  treatment sessions 327, 328
Acupuncture needle manipulation 27, 28, 33
  sparrow-pecking technique 25
Acupuncture points
  for surgical anesthesia 332
  for treatment of osteoarthrosis 18
Acute toxicity test of E. grijisii 131
Ad Hoc Committee on Acupuncture of the National Institute of Health position on acupuncture 5
Aging process 296
Aging theory 303
An Organ Resembling Omega 195
Anemia treatment with Kuei-chih-fu-ling-wan 314
Angelica acutiloba 233, 241
  anti-tumor activity 233
Angiotensin II (AII) 69, 71, 175
  in ovarian tissue 177
Angiotensin-converting enzyme (ACE) activity assay 92
Anti-cancer drug 231
Anti-cancer effect of
  PSCV, PSK, PSP 222
Anti-diabetic crude drugs 270
Anti-inflammatory effect of
  B. championii 40, 47
  B. malabarica, Ceiba pentandra 144
  E. grijisii, E. latifolius 130
  M. repandus 47
  Mu-mien 135
  M. reoandus, U. hinsuta, U. rhynchophylla 47
Anti-tumor effect of
  Angelica acuiloba 233
  Coriolus vesicolor 230
  mushroom 221
  Physalis angulata L. 239
  PSCV, PSK, PSP 221
Antibody response
  Physalis angulata L. 241
Arrhythmogenic activities of "Kyushin" 246
Arrhythmogenic effects of
  digoxin, KY-2, KY-R 252
Asthenozoospermia 158, 163
Astragalus membranaceus 289, 290, 292, 293
  chemical consituents 292
  pharmacological effects 292
  preparation 290
  sperm motility 291, 292
Atrial natriuretic peptide (ANP) 66
  binding sites 72
B. championii 40

anti-inflammatory activity 47
hepatic protective effects 41, 43
B. chinense 263
B. malabarica 142, 262, 263
anti-inflammatory activity 144
effect on carrageenan-induced paw edema 138
hepatic protective effects 140
liver protective effect 136,144
preparation of extract 136
Ba-wei-di-huang-wan 316
Bachmann area 326
Bachmann Program 325, 328, 329
for gonarthrotic pain 326
on gonarthrotic disorders 328
Bauhinia championii Benth 37
Benincasa cerifera 233, 241
Binding sites for ANP 66, 72
Bombax malabarica 258, 262
CCl_4-induced acute hepatotoxicity 139
hepatic protective effect 140, 259
Bombax malabarica DC 135, 136, 257
Bufadienolides 246, 254, 255
Bupleurum chinense 258, 259, 262
hepatic protective effect 259

C. assamica
pyrrolizidine alkaloids 284
C. Cassia Blume on blood pressure pulse 186, 187
C. pentandra (Ceiba pentandra) 135, 136, 143
anti-imflammatory activity 144
effects on edema 138
hepatic protective effect 140
on CCl_4 induced hepatotoxicity 139, 144
preparation of extract 136
Calcitonin gene-related peptide (CGRP) 103
Cardiotonic action of Kyushin 246
Cardiotonic effect of KY-2 254
Cardiovascular effect of KY
influence of propranolol 147
mechanism 154
Carrageenan-induced paw edema 135, 136
CCl_4-induced hepatotoxicity 39, 40, 127, 135, 137, 257
CGRP-IR fibers 106
CGRP-like immunoreactivity 106
Chang Chung-ching 11
Cheng gan cao (*Eupatorium japonicum*) 281, 282
Chien Chen 2
China influenced the Arab world 3
Chinese herbal medicine 181, 240, 242
Chinese herbal remedy 313
Chinese herbs 281, 307
induce differentiation in leukemic cell 307
Chinese medical technology 2

Chinese medicine 8, 192
impact on America 1
on Arabic medicine 3
on myoyamoya disease 319
Chou Ritua 8
Cinnamomum cassia Blume 181
CM-572 secreted by *Viscum alniformosanae*
induce differentiation of HL-60 311
Constant initial force (CIF) vibrator 118
Coriolus versicolor 222, 230
anti-tumor Effect 221
Coriolus versicolor (Cov-l) 221
extraction by HPLC and CIEF 221
Coriolus versicolor (SPCV) 221, 225
anti-tumor effect 221
Crotalalaria assamica ("zi xiao rong") 281, 286, 287
alkaloid 286
pyrrolizidine alkaloid compositon 281
Cytotoxic effect of SPCVon tumor cells 228

Development of medicinal plants in the west 8
Diabetes mellitus 270
in Taiwan 269
Differentiation of HL-60 cells 310
Digoxin
arrhythmogenic effects 251
cardiotonic and arrhythmogenic effects 253
on hemodynamics and respiration 250
on myocardial contractile force 251, 252
Distribution of IF with CIF vibrator 119
DNA polymerase α activity
inhibit by TS, KB,and UT 265
DNA polymerase α activity 75 , 77, 78, 79, 80, 81, 267
suppressed by TS, KB and UT 75
DNA polymerase β activity 75
Dose-dependent effect of ginsenosides
on smooth muscle cells migration 169, 171
Dysmenorrhea 316
treatment with Kuei-chih-fu-ling-wan 314

E-acupuncture 104
E. cannabinum ("pei lan") 282, 287
pyrrolizidine alkaloids 284
E. grijisii (Echinops grijisii) 127, 128, 129, 132
anti-inflammatory effects 127, 130, 133
effect on paw edema 129, 131, 132, 138
extraction and separation 128
E. japonicum 281, 287
pyrrolizidine alkaloid composition 281
pyrrolizidine alkaloids 284
E. latifolius (Echinops latifolius) 127, 128, 132
anti-inflammatory effects 127, 130, 133
effect on carrageen-induced paw edema 129, 138
Eclipta 51, 60

Electroacupuncture (E-acupuncture) 103, 335
Electron micrographs of the twined materials 30, 31
Endorphin 124
Endothelial cells
isolation and cultured method 92
Endothelin-l (ET) 66, 69, 71, 72
in plasma 177
in ovarian tissue
tokishakuyakusan effect 177
Endothelin-renin-angiotensin-ANP system (ERAANPS) 65, 72
Eupatorium cannabinum (pei lan) 281, 283, 286
main alkaloids 283
pyrrolizidine alkaloid composition 281
Eupatorium japonicum ("cheng gan cao") 281, 286
main alkaloids 286
European recognition of acupuncture 3

Finger flexion force (FFF) 119

Galanin 112
functional role 111
Galanin expression
mechanism of 111
Galanin-IR fibers 111
in sensory neurons 107
in moxibustion-treated skin 108, 111
Galanin-like immunoreactiveity 103, 106, 111
Garlic as medicine 13
Ginseng 12
Ginseng saponin efficacy 91
Ginsenoside Rg1
chemical structure 94
effect on
morphology of primary endothelia cells 93
secretion of angiotensin-converting enzyme 91
secretion of plasminogen plasminogen activity 91
isolation method 92
Ginsenosides
inhibition of smooth muscle cells migrition 172
on SMC migration 167, 169, 170, 171
proliferation of smooth muscle cells 168
Gonarthrotic pain 325, 328
with Bachmann's Program 329
treatment by acupuncture 325
Gossypol
for male contraceptive 12
Great Herbal, 11
Gui- Zhi-Fu-Ling-Wan (GW) 319, 323
components 322
